

1. Introduction

This Business Requirements Document (BRD) defines the business needs and requirements for the **E-commerce Sports Shop System**.

The system aims to support online sales operations for a small sports shop by improving product management, order processing, and customer experience.

2. Business Objectives

The objectives of this project are:

- Enable customers to browse and purchase sports products online.
- Reduce manual effort in managing orders and products.
- Minimize errors in order recording and tracking.
- Improve overall efficiency of shop operations.
- Provide a foundation for future system enhancements.

3. Stakeholders

Stakeholder	Role
Shop Owner	Business owner and decision maker
Customer	End user who purchases products
Admin	Manage system operations
System	E-commerce website

4. Business Requirements

4.1 Customer Business Requirements

- **BR-01:** Customers shall be able to browse products by category.
 - **BR-02:** Customers shall be able to view detailed information of each product.
 - **BR-03:** Customers shall be able to create an account and log in to the system.
 - **BR-04:** Customers shall be able to add products to a shopping cart.
 - **BR-05:** Customers shall be able to place an order through the system.
 - **BR-06:** Customers shall be able to view order status after placing an order.
-

4.2 Admin Business Requirements

- **BR-07:** Admin shall be able to create, update, and delete product information.
- **BR-08:** Admin shall be able to view and manage customer orders.
- **BR-09:** Admin shall be able to update order status.
- **BR-10:** Admin shall be able to manage customer accounts.

5. Business Process Overview

5.1 Current Process (AS-IS)

Currently, customers place orders by contacting the shop through social media channels. Order information is recorded manually, leading to inefficiencies and potential errors in order management.

5.2 Proposed Process (TO-BE)

In the proposed system, customers will browse products and place orders directly through the website.

Admins will manage products and orders using a centralized system, improving efficiency and accuracy.

6. Assumptions and Constraints

6.1 Assumptions

- Customers have internet access and basic digital skills.
- Admin users are trained to operate the system.

6.2 Constraints

- Online payment integration is not included in the current scope.
- The system is designed for a small-scale sports shop.

7. Out of Scope

- Integration with payment gateways.
- Integration with delivery services.
- Mobile application development.
