

1. Overview

This document defines the business rules applied to the E-commerce Sports Shop system.

2. Customer-related Rules

- BR-01: A customer must be logged in before placing an order.
- BR-02: A customer can have only one active cart at a time.
- BR-03: A customer can view order status only for their own orders.

3. Cart-related Rules

- BR-04: A cart cannot be checked out if it is empty.
- BR-05: Cart items quantity must be greater than zero and less than or equal to available stock.
- BR-06: Cart will be cleared after order is successfully created.

4. Order-related Rules

- BR-07: An order is created only after customer confirms checkout.
- BR-08: An order cannot be cancelled once its status is "Shipped".
- BR-09: Order total amount is calculated based on product price at order time.

5. Admin-related Rules

- BR-10: Only admin can update product price and stock.
- BR-11: Admin can change order status.
- BR-12: Admin cannot delete completed orders
- BR-13: Admin cannot see customer's password in plain text.

The defined Business Rules are strictly enforced and visualized through Use Case, Activity, Sequence, and Class Diagrams to ensure system integrity.
